

rural_cmnty

Location: planning\rural_cmnty

Description

This layer consists of rural community special treatment zones used in the Bay County Comprehensive Plan dated December 1999. The layer consists of polygon features for 3 communities: Fountain, Sand Hills, and Youngstown.

Source

In July 1998, Bay County GIS staff created in ArcInfo a **woss** coverage, including service areas and rural community special treatment zones. The Planning Manager supplied a paper map with the WOSS areas highlighted. Features from the existing coverages **county** and **plss** were used to create the service areas. (For more information, see **county** and **plss** documentation.)

In April and June 1999, service areas were removed to a separate **service_areas** coverage. The Fountain community was extended south to Hwy 20. The coverage was converted to a shapefile. See Map 2 Special Treatment Zones in the Comprehensive Plan.

In August 2002, Bay County GIS staff added the **community** attribute.
